ABOUT ME:

I'm a Full Stack Java Developer and actor. Recently I attended a bootcamp at MindHub LA where, applying Agile Scrum methodologies, we simulated a real work environment.

I am excited about the idea of joining a high-performance work team where creativity and diversity of ideas are encouraged to face new challenges. I'm a easy going developer who can bring new perspectives when facing new problems and constantly trying to improve my skill set.

TECHNOLOGIES & FRAMEWORKS

Spanish: Native

English: Conversational

WORK

Software Developer (2022 - Present)
Mercado Libre

Write modern, clean and maintainable code in order to become a better developer.
Growing when communicating with a team of multi-disciplinary professionals that teach me new ways of working and new tools to acomplish my objectives.

EDUCATION

Full Stack Java Bootcamp (2022)
MindHub LA

There I learned to handle Html5, Css, JavaScript, VueJs and Bootstrap to create a user friendly frontend and Java with Spring Boot and JPA to develop RESTful services.

Some examples of projects are an e-commerce and a fully functional homebanking.
